## **Vision Statement**

Bernice University is driven to be a leading Higher Institution of excellence, innovation, and impact, committed to producing globally competitive graduates, advancing research, and providing sustainable solutions to societal, technological, health, and agricultural challenges.

## **Mission Statement**

The mission of Bernice University is to provide quality, inclusive, and interdisciplinary education through teaching, research, and community engagement. The institution is committed to:

- Training competent professionals in Engineering and Technology, Social and Management Sciences, Agriculture, and Health Sciences.
- Promoting innovation, entrepreneurship, and practical skill development that respond to local and global needs.
- Advancing research and knowledge for sustainable development, food security, public health, and technological progress.
- Upholding ethical values, leadership, and social responsibility in the formation of graduates.
- Partnering with industry, government, and communities to drive economic growth and societal well-being.

## Faculty of Engineering and Technology
